ARE YOU UP TO THE CHALLENGE?

Do you think you know technology? If you answered, "Yes!" sign up to take the Technology Literacy Challenge. The exam has 50 multiple-choice questions which are vocabulary and concept oriented. They will come from the following topic areas:

- History of computers
- Parts of the computer
- Peripheral computer devices
- Uses and limitations of computers
- General uses of common computer applications software
- New and emerging technologies
- The Internet
- Social implications of computers
